3. The Government also direct that registration i Class V shall be done by the Divisional Engineer/Executiv for works in his jurisdiction & registration for Class IV above by the Superintending Engineer of Highways and Rural Public Works Department, for works either in his Circle or pertaining to the Department, throughout the State.

4. Contractors shall register themselves in more t one territorial unit of a Division or a Circle of the sam department, after payment of the requisite application and tration fees, in each case. However, registration in a parti territorial unit shall not entail them for registration in territorial unit of the same department, as a matter of rig No contractor shall be permitted to get himself registered, more than one name in the same Territorial area.

5. The registration of a contractor for works Division or a Circle of the department, is on a territorial basis and as such, separate registration is not necessary a Special Division or a Special Circle of the same departme for taking up works lying in the Territorial area, covered b the first registration. This restriction will not apply to contractors in Class IV and above, registered as State Level Contractors. The registration in Class V is applicable to the territorial area of particular division only.

6. Contractors shall be registered separately under each department.

a) New contractors, without experience, in any Governmen department, shall be registered in Class V by the Divisional Engineer/Executive Engineer. However, Priva or Public Limited concerns, having a permanent engineering organisation, capable of dealing with large contracts, in all their stages and proven track record, can be considered for registration in the appropriate class. They should submit with their application, all details about the organisation, work carried out and financial resources. Partnership Firms Individuals shall have satisfactorily executed
